HANS CHRISTIAN ANDERSEN
HOME COLLECTION 2018

This year we are expanding our collection of fairy tale ornaments by adding several boxes – both oval hanging fairy tale ornaments and miniature versions of the motifs from The Tinderbox. The small ornaments are perfect as Easter decorations as well as a souvenir for tourists or a present for international friends.

The fairy tale ornaments are available in either silver plated or gold plated versions and come with ribbons in two colours in each box, this way they can be used for multiple occasions – for example both Easter and Christmas. See the markings under each product to see which colour ribbons are in the box.

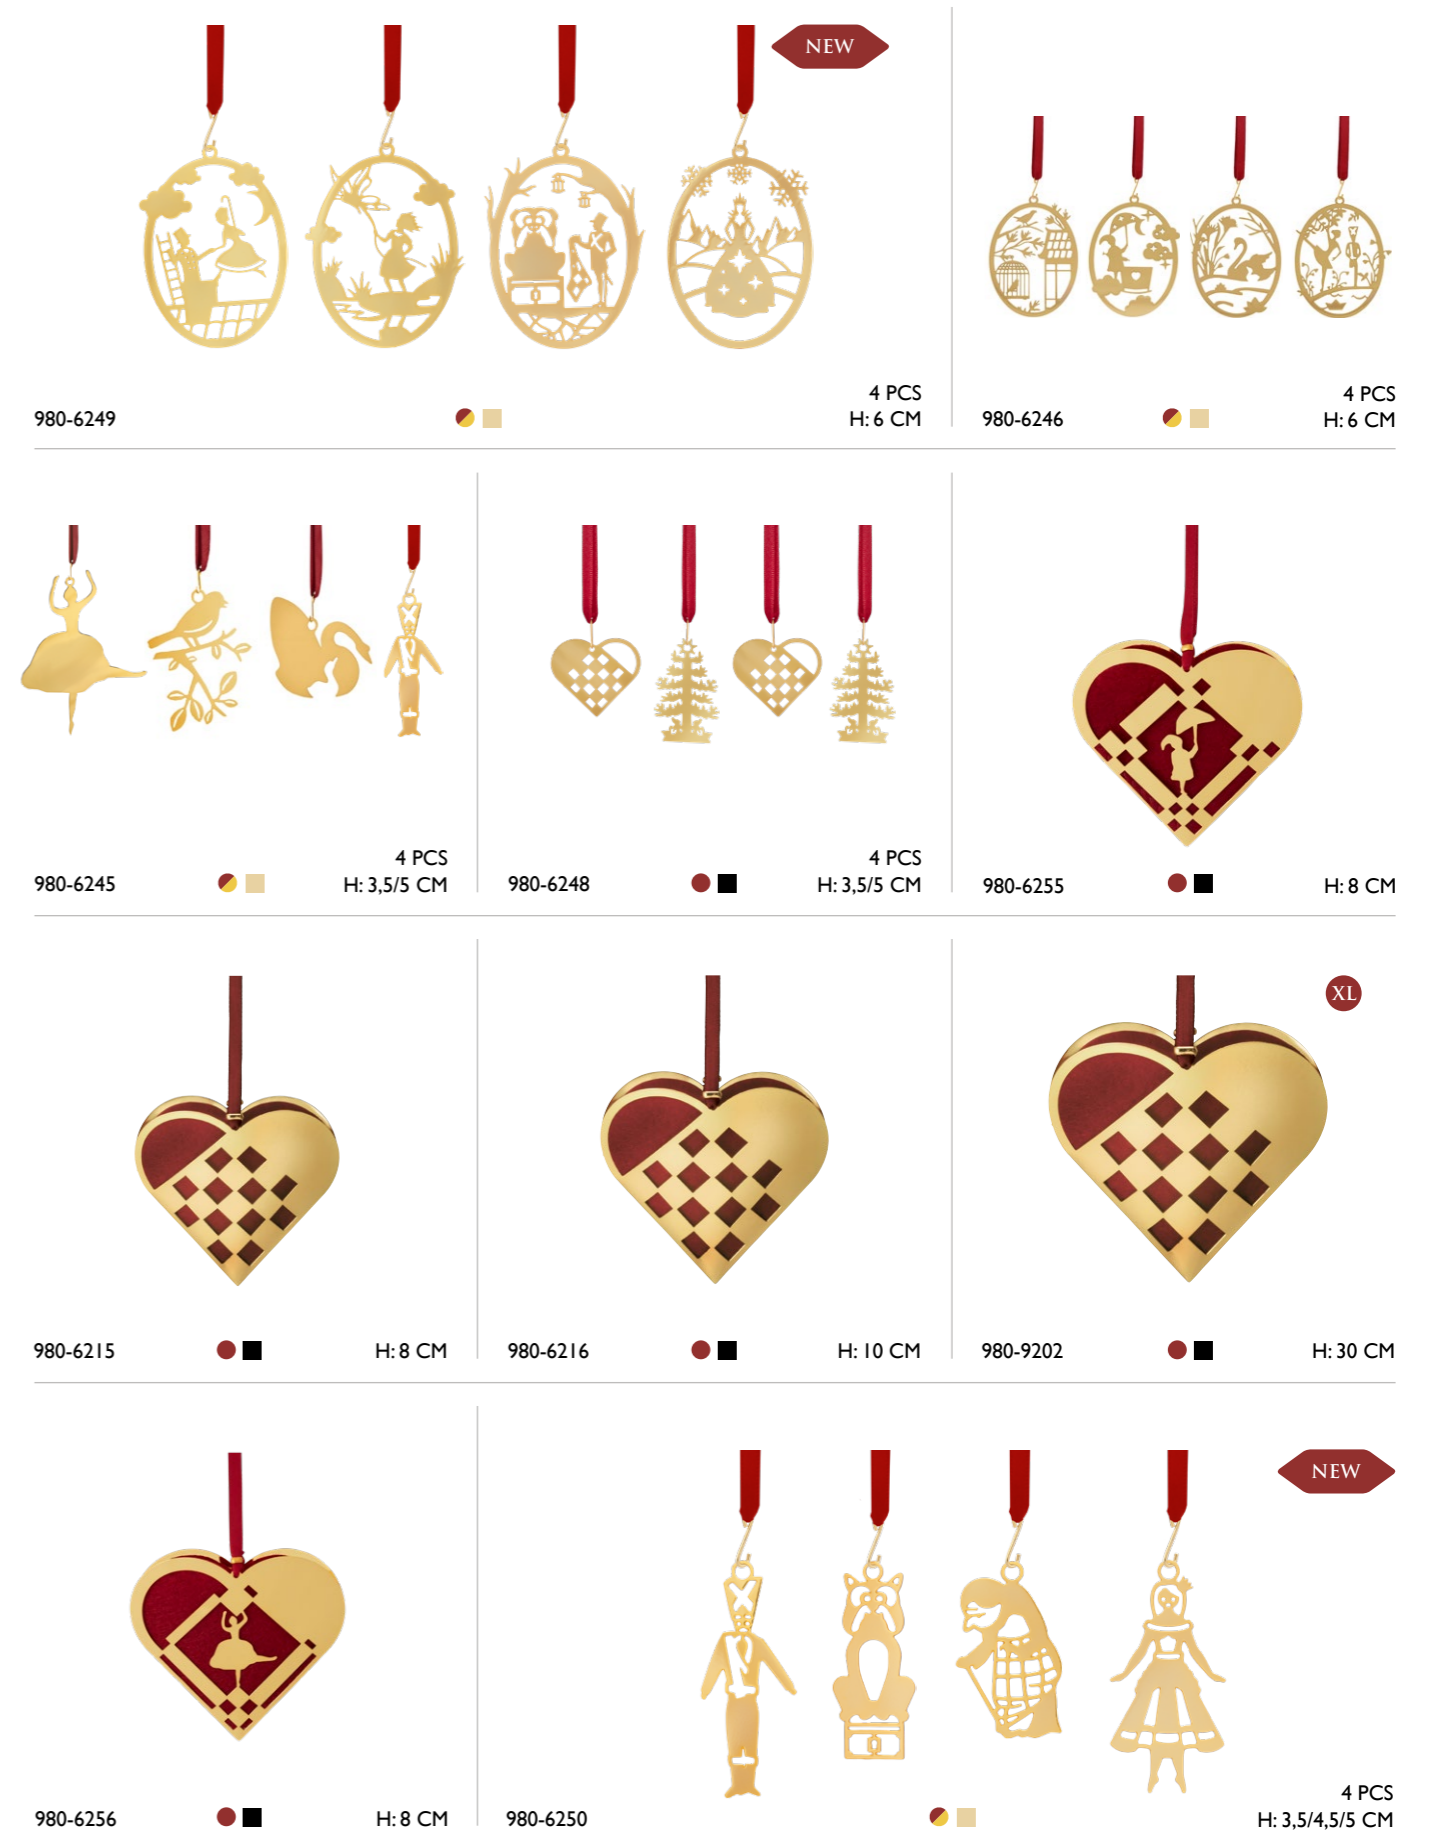

All products come in nice gift boxes, ready to be given away. All-year products in light boxes and Christmas decorations in black boxes. See the marking under each product to see what colour the box is.

The fairy tale of the year is the Snow Queen, meaning the arrival of a series of beautiful hanging ornament, cone and a heart with the Snow Queen weaved into it. Products with the Snow Queen will only be available in the gold plated version.

See all the products on the next few pages and read more on www.hcandersenhome.com
