SIGVARD BERNADOTTE

DESIGN: BERNADOTTE

The Bernadotte collection is inspired by a 1938 sterling silver milk jug designed Sigvard Bernadotte. The collection took the elegant riffled lines of the Art Deco original and applied them to a series of tableware.

Born into the Swedish royal family, Prince Sigvard Bernadotte was one of Georg Jensen's most successful and popular collaborators. Influenced by the functionalist movement, his elegant and sophisticated designs helped modernise the world of silver craft.

Born in 1907, Prince Sigvard Bernadotte was trained at Stockholm's Royal Art Academy. He was greatly influenced by an exhibition of Gunnar Asplund in 1930 which marked the breakthrough of functionalism in design and this aesthetic governed his subsequent long collaboration with Georg Jensen. His sleek and sparingly-decorated work was in stark contrast to the ornamentation of earlier silver craft and this modernity was a perfect match for the new fun-loving society of the time. The fact that his pieces still resonate with today's generations is a testament to his skill and the reason he has a firm place in the history of Scandinavian design.

CONSTANTIN WORTMANN

DESIGN: COBRA

Born in 1970 in Germany, Constantin Wortmann studied design in Munich before working with legendary lamp designer Ingo Mauer. Later he co-founded influential agency Büro für Form from where he undertook furniture, interior and lighting projects.

He is an expert at working with very advanced computer programmes and evolves natural organic shapes entirely on screen before making them real. As a result, his work is precise and controlled but still with an emotional pull in its use of shape.

Constantin Wortmann always strives to inject a playful element in his work, believing that design need not be taken too seriously. His motto is 'form follows emotions' and so he takes archetypal objects and then redesigns them by adding something quirky that evokes a reaction from the consumer. He is responsible for some of Georg Jensen's most popular pieces.

TOP STAR LARGE, 18 KT GOLD PLATED

(DK) Den forgyldte juletræsstjerne er en klassisk favorit blandt Georg Jensens mange elskede produkter. Få juledekorationer er lige så ikoniske som denne stjerne, der stråler højt fra træets grønne top i mange hjem. Som kronen på værket er topstjernen den ultimative december pynt, der favner alt det, der handler om familiehygge og julestemning i den kolde tid.

(ENG) The gold plated star for the Christmas tree is an all-time favourite in the Georg Jensen portfolio. Few Christmas decorations are as iconic as the star that sits atop the tree. It is the crowning touch, the final piece of decoration that captures the spirit of family and togetherness that is such a big part of the festive season.

KAY FISKER PITCHER

(DK) Denne kande er nu produceret i spejlpoleret rustfrit stål, opdateret fra originalt sterlingsølv. 1920'erne markerede begyndelsen på design-samarbejdet mellem Georg Jensen og arkitekt Kay Fisker om hans smukke sterlingsølvkander. Selvom dette kandedesign nu er næsten 100 år gammelt, er det virkelig slankt, moderne forud for sin tid. Kanden tåler ikke opvaskemaskine.

(ENG) This striking pitcher is now exclusively in mirror-polish stainless steel, updated from its original sterling silver. The 1920's marked the beginning of the design collaboration between Georg Jensen and architect Kay Fisker on his beautiful sterling silver pitchers. Although this pitcher design is now almost 100 years old, it is truly sleek, modern, ahead of its time. The pitcher is not dishwasher safe.
