

Focus On Good Design Since 2011

ELEGANCE - SUSTAINABILITY - UNIQUENESS

2024 Product Catalogue

Our Story

With a big Thank You to the support from all our customers

We're Natalie and Paul Sun, and our passion for art and design led us to set up Gingko Design in 2011, the same year we were married.

Using the latest technology and a fresh, modern approach, we bring elegance and practicality together in a seamless and sustainable way, enabling us to create lighting, accessories and timepieces that will bring something truly special to your home.

So why Gingko? We get asked this a lot. Gingko (or Gingko biloba) has always been a symbol of hope, friendship, adaptability and even invincibility. It is seen as a mediator between past and present, Orient and Occident, spirit and nature.

This has always been inspiring us, here at Gingko Design, of how we're doing our work here and how we should treat our people, our customers and our suppliers. And most importantly, it also inspired us to create all our lovely products over the past decades and it will continue to do so.

We believe good designs can give people hope, friendship and also inspires people of how to become more adaptable and invincible. We believe good designs can connect us together from the past, present and even the future, no matter of what religious or cultural background; We also believe that good design should be simple but elegant, sustainable but unique, functional but also long lasting - This philosophy has inspired us to create our innovative and stylish designs that have won a number of international awards. We have now become a main player in the premium & creative design-led home and gift sector in the UK and cross the Europe.

We feel proud of what we have created and hope you share the same thoughts as us and feel the same pride in selling or owning our beautiful products.

Together, we can make it even better.

A hand is shown touching the top of a glowing, white, origami-style lamp. The lamp has a twisted, geometric design and is illuminated from within, casting a warm yellow light. To the left of the lamp is a black, octagonal object with a gold-colored power button and a small gold-colored label that reads "dining". The background is a plain, light-colored wall.

AtlasGlobe Lamp

Immerse yourself in the elegance and wonder of our world with the AtlasGlobe Light, a sophisticated world globe light that serves as both a source of illumination and a piece of interactive art.

This exquisite globe has two distinct finishes: a serene Light Blue Globe elegantly seated on a White Ash base, and a stately Dark Blue Globe resting on a rich Walnut base. Each finish comes in two sizes, Mini and Large, making it a perfect fit for any room, whether a cozy study or a spacious living area.

Ease of use is a key feature of the AtlasGlobe Light. A simple tap on the copper button activates the light, while an extended touch adjusts the brightness, thanks to its advanced LED technology. It promises a long lifespan of 50,000 hours and ensures energy-efficiency and environmental friendliness.

The globe's base is ingeniously designed with three smart spinning metal balls, enabling the globe to rotate freely. This unique feature adds an interactive dimension to the globe, making it a fascinating educational tool and decorative item.

Twist Hexagon Lamp

Illuminate your home with the simplicity and elegance of the Twist Hexagon Lamp, a beacon of modern design and practical functionality. This statement piece transcends the ordinary, delivering more than just illumination. Available in a sleek Matte Black or a rich Walnut finish, it seamlessly adapts to a wide range of interior styles while maintaining a minimalist aesthetic that captivates and charms.

The lamp's body, made of durable ABS with a tactile textured finish, presents an innovative twist on lighting design. Its unique hexagonal shape, enveloped in water-resistant and tearproof Tyvek paper, elegantly unfolds and twists to form a mesmerizing display that softly diffuses a warm white glow throughout your living space. More than a mere light source, this lamp is a dynamic sculpture that engages and inspires, sparking conversations and capturing imaginations.

A gentle tap on the top button is all it takes to activate the lamp's enchanting radiance, ensuring usage is as effortless as it is intuitive. Equipped with a USB-C rechargeable port, the Twist Hexagon Lamp promises up to 12-15 hours of continuous, energy-efficient lighting on a single charge. It is the quintessential accessory for a cozy reading corner, a stylish bedside companion, or an artistic touch to a modern office desk. The Twist Hexagon Lamp offers an unparalleled combination of innovative design, enduring functionality, and creative flair.

Modern design and practical functionality all in one.

Smart FootballSpin/LunaSpin Lamp

Discover the Smart FootballSpin and LunaSpin Lamp, an exquisite blend of elegance and innovative technology.

Offered in Mini (12cm) and Large (18cm) sizes, these lamps showcase 3D-printed globes that seamlessly float above a robust walnut base, creating an alluring and sophisticated ambiance. The globes are interactive, changing between three calming light colors—warm, cool white, and warm white—with a simple tap, allowing you to set the mood to your preference.

Saw the Saturn as well? Yes, and that will be available from the Autumn Winter season this year :-)

FootballSpin Lamp

Introducing the Smart FootballSpin Lamp, where art meets technology to create an atmosphere of elegance and wonder. Tailored to captivate the hearts of sports fans.

A standout feature of these lamps is their ability to rotate autonomously, presenting an enchanting display of perpetual motion or to remain stationary as desired. This adaptability provides a customizable experience, whether you are looking for a lively centerpiece or a peaceful accent in your room.

Tap to change the light colour
Or you can do this via the provided

LunaSpin Lamp

Smart LunaSpin Lamp is where art meets technology to create an atmosphere of elegance and wonder. Tailored to those who find solace in night sky.

At the heart of each lamp is a 3D-printed globe meticulously designed and crafted. The globes, resting on a solid walnut base are not merely stationary ornaments but dynamic elements that bring each theme to life. This feature can be controlled to keep the globe static, allowing for versatility in presentation.

The innovative design extends to the charging system. The globes are powered by a cutting-edge magnetic wireless charger, ensuring a seamless and modern look. The base, rechargeable via a USB-C cable, boasts a long-lasting battery life of 12-15 hours, ensuring the lamp remains a reliable source of light and beauty.

ALICE Mushroom Lamp

The Alice Mushroom Lamp is the epitome of uniqueness and functionality with its sleek Walnut and White Ash Wood finishing and a premium frosted milky white ABS shade. Its weight and sturdiness is a testament to its quality and durability.

Switch between 7 soft RGB lights and the warm white light mode with a gentle tap on the mushroom ABS shade, or tap again to choose your preferred colour. Light up your space with vibrant and vivid colours or set a calming and relaxing mood with its soft, muted shades.

The Alice Mushroom Collection comes in Large, Mini and Super mini sizes and all is available in walnut and white ash wood base.

A choice of two sophisticated finishes, Walnut and White Ash, catering to various tastes and complementing different interior designs.

The SuperMini is a new addition added to the Alice collection in 2024 and that is inspired and required by our Head of Design's daughter Amelia who just turned into 7 year old last Dec.

Amber Crystal

Light Collection

The Amber Crystal Light is designed to add a touch of magic and wonder to your space. It features five lighting pieces, each with its own unique 3D laser-engraved design: Galaxy, World Globe, Saturn, Solar System, Dandelions.

With a height of 12cm, the crystal ball pieces come in Walnut finishing to complement your interior design. You can switch between three light intensity levels by touching the copper button on the front of the base.

The crystal is also polished to a shine that reflects light and creates a stunning effect in any room.

The Galaxy Design

Bringing the wonders of the galaxy into your home? The Galaxy Design promises to create an entrancing effect and make your home look truly special, featuring a laser-engraved motif that symbolises the stars and galaxies.

The warm light creates an inviting atmosphere while incorporating interstellar magic into your home décor.

Prepare to be mesmerised every time you see the crystal ball in action with its heavenly display.

The Dandelion Design

Let the light shine with our beautiful crystal lighting ball featuring a 3D laser-engraved dandelion design. This unique design will spark joy and make any space come alive. The intricate dandelions symbolise luck and wish and add a subtle yet sophisticated flair and a timeless touch to your home. It's the perfect choice for those looking for a lamp to serve as the centrepiece and provide years of enjoyment.

The Solar System Design

The solar system design is a beautiful representation of the universe and its vast depths. It highlights the interconnectedness between all things in our world as well as the beauty of the stars and planets. This lamp will create an atmosphere of mystery and awe, reminding you to look up at night and appreciate how small you are compared to the grandiosity of the universe. The golden glow will make any room appear brighter and more inviting, with the detailed image adding a touch of mysticism.

The Saturn Design

The Saturn design reflects the planet's beauty, power, and mystery. With its unique design and shimmering glow, this laser-engraved crystal lamp ball will be a great conversation piece. It's also bound to add the perfect finishing touch to any décor. However, the symbolization of Saturn brings with it much more than just a pretty design. It represents strong foundations and stability, conveying that no matter what is happening outside your home, your family can be sure of a safe haven within. Carrying a classic charm, the crystal lighting ball with the laser-engraved Saturn motif will be a timeless piece, warming up your home for years to come.

The World Globe Design

the World Globe design promises to take modern décor from good to great. The sleek design will fit in with any contemporary interior design, while the globe rendering adds a touch of whimsy. This lamp will be the perfect conversation piece and will become the focal point of any room. It is perfect for a living room, bedroom, or office, guaranteeing a calming and peaceful atmosphere while still being a statement feature. laser-engraved Saturn motif will be a timeless piece, warming up your home for years to come.

Lemelia Light

At a height of 10.5 cm (large) or 6cm (mini), the Lemelia Light collection serves as an attractive centrepiece while spreading light to all corners of a room.

Available in Walnut and White Ash Wood finishing, this lamp produces a stellar burst of light through the Premium Frosted Acrylic Glass shade.

With two lighting modes - 7 rotating RGB lights and a white light mode - you can create a variety of custom lighting effects to fit any occasion with a simple tap on the wooden top.

Mini Lemelia

The Lemelia light is our smallest and cutest to date, making it an extremely portable and versatile addition to your homewares. But its size doesn't stop it from packing a punch in terms of impact.

Large Lemelia

With the large version Lemelia light, you can also dim the light by touching the wood top when you want to set the mood with extra soft lighting.

Get ready to light up your home with our new dimmable large Lemelia light.

Smart Moon Lamp

Using the latest innovative design from Ginkgo to create a fascinating focal point for any stylish home or office, this beautiful rotating moon lamp will amaze your guests and provide an uplifting glow for any space.

The sphere, with its textured surface imitating that of the moon, slowly rotates in the space above your choice of wooden base: walnut or white ash. Using a powerful built-in magnet, the moon is suspended and floats in mid-air, creating a stunning and functional piece of design.

By gently touching the base, you can choose from three different light modes; warm yellow, cool white or warm white, something to suit every taste.

This unique lamp is eco-friendly, being made with completely safe and biodegradable PLA material and reclaimed wood. So for those of you that truly appreciate the world around us (and above us!) and wish to own something extraordinary, this is the perfect purchase.

Smart Galaxy Lamp

Witnessing the stars and the Milky Way Galaxy in the night sky away from the cities is a surreal experience we rarely have the opportunity to enjoy. We all love looking at the stars and admiring their beauty in the night sky, but it is impossible with all the light pollution and cloudy night skies in the cities.

This is where our Smart Galaxy Lamp comes in.

The Smart Galaxy Lamp features a textured surface galaxy globe rotating slowly above the black wooden base. Powerful built-in magnets suspend and slowly rotate the sphere mid-air, creating a stunning visual for you to behold.

Smart Baton Light

Gingko Design's innovative, stylish, smart, and sustainable design practices find. The perfect combination in the form of the Smart Baton Light. Elegantly designed in the shape of a cylindrical baton, the frosted acrylic light comes with a wooden handle made using your choice of ethically-sourced natural walnut, white ash, and black wood.

Emitting a warm and radiant glow softened by the frosted acrylic diffuser housing, the Smart Baton Light is the perfect addition to any household as a decorative work of art and a sophisticated lighting solution. The Smart Baton Light comes with a wooden base that you can install on a wall. Attach the Smart Baton Light through a magnetic wall-mount to connect it to the base, instantly turning it into a wall light from a handheld torch.

Smart Baton Light is an absolute stunning design that can fit in any space for any lighting purpose.

Smart Accordion Lamp

Inspired by the shape of an accordion, the Gingko Smart Accordion Lamp is a must have home accessory for any room. To open it, simply pull it as you would play an accordion, and it will instantly transform into a sculptural light emitting a wonderful ambient warm LED light through the accordion shaped pages.

Close it and open it again, and it magically **changes** to cool white LED light instead of warm light as before; when it's fully closed, it becomes a laser-cut wooden hexagon display object. This aesthetically pleasing design has a magnetic cover on both sides, so you can open it to a full 360 degrees. You can also connect it to as many units as you wish to create your own piece of sculptural art.

With the Smart Accordion Lamp, you can always create your own forms of light art, to be inventive and inspiring.

The Gingko Smart Booklight collection is certainly a great additional piece of art to any home; when closed, this Smart Book Light masquerades as a laser-cut wooden/leather/linen fabric 'book' (depending on the collection material), but when opened it transforms into a sculptural light emitting a wonderful ambient warm white light through the pages.

The beautiful, exquisite design opens to a full 360 degrees with cleverly concealed magnets and the lovely soft touch Tyvek pages are tearproof and water-resistant and are lit by long-lasting LED lights. Inside the laser-cut wood or leather cover lies an interior lamp body made from durable, water-resistant Tyvek "pages" containing high-performing LEDs.

Sustainably sourced natural wood,
fibre leather or linen fabric with
tear-proof Tyvek Paper

A modern desk lamp with a dark, octagonal base and a long, thin, illuminated arm. The lamp is positioned on a wooden desk, and its light is directed towards a computer monitor in the background. The background is a blurred indoor setting with a plant and a sofa.

Octagon One

Desk Lamp

Modern and innovative design uses simplicity and minimalism in an elegant form. Ginkgo Design's Octagon One Desk Lamp is the perfect culmination of form and function. At first glance, the Octagon One Desk Lamp looks like a modern art statement piece with its unusual proportions. A simple gesture to touch the control button built on the base instantly turns it on to emit a soft and illuminating glow pleasing to the senses.

Made using high-quality aluminium, the Octagon One Desk Lamp features a high-quality finish that makes it look like natural wood or marble that you cannot tell unless you touch it. It features an in-built rechargeable li-ion battery with 1,800mAh capacity that powers 36 LED beads cleverly housed behind a frosted acrylic diffuser in the light, giving you the option of four brightness settings.

Octagon One is a purposeful yet organic design,
as well as a warm addition to any desk or office space.

The New Octagon One Plus Desk Lamp inherited the same elegant design as our global multi-award winning Octagon One Desk Lamp, but now incorporates our popular Click Clock in the hexagon base and is made of 100% sustainable natural wood.

This smart design isn't just simply combining the best of simplicity and natural material to achieve its modern industrial aesthetic, but has also solved our everyday space-saving dilemmas by combining an alarm clock and light into one sculptural piece, leaving space for the more important things in our lives..

Octagon One Plus

Alarm Clock Desk Lamp

It's not just a lamp simply with a clock added on the base,
It's also a sculptural unit created with our product philosophy of elegance, uniqueness and sustainability.

Sustainable Audio Collection

Drum Light Bluetooth Speaker
Tumbler Selfie Speaker
MI Square Speaker
Halo One Speaker

Technology has moved on...we no longer simply need a speaker that can play our favourite tunes with a decent sound, we now also want it to be aesthetically pleasing , simple and fun to use. And, most importantly for our environment, sustainably made. Here at Gingko, our audio collection, especially with our brand new DRUM Light Speaker, it will meet all of these desires.

Drum Light Bluetooth Speaker

Immaculate design, versatility, and an incredible audio-visual experience culminate in forming the Gingko Design Drum Light Bluetooth Speaker. You stand this cylindrical device on one end, and you get a beautiful and stylish light. This is perfect for use as a mood light and proper illumination with two lighting intensity modes.

Stand it on the other end, and you get a compact and powerful Bluetooth speaker. Connect it with another Drum Light Bluetooth Speaker to get an incredibly rich auditory experience a powerful through stereo sound with True Wireless Pairing. The device is made using FSC-certified natural wood and is available in maple, bamboo, or walnut.

The beautiful wooden casing comes with a detachable vegan leather lanyard perfect for hanging it up for bedtime reading or creating a welcoming and warmly-lit environment.

Simply flip the light side over
or lie it on its side to turn it into a handy
and portable light...

Tumbler Selfie

Bluetooth Speaker

Housed in a 100% natural and sustainable wood casing with breathable fabric top, the Tumbler Selfie Bluetooth Speaker designed and made by Gingko is not just any portable selfie speaker. This handy and sleek looking design not only plays your favourite tunes with a powerful sound from such a neat size, but also features a hands-free Selfie function to capture any moment at any time, anywhere.

Play your favourite tunes easily when you're out and about by attaching the stylish hand strap (included). Powered by an in-built rechargeable battery, it has a long battery life of up to 10 hours of play and can be easily recharged using the cleverly hidden USB charging port on the reverse of the tumbler.

Capture your lovely moment at any time,
anywhere...

A Halo One Bluetooth speaker is shown on a dark wooden table. The speaker has a large, circular, perforated metal grille and a wooden-textured side. To the left of the speaker is a white ceramic mug filled with dried, light-colored flowers. The background is a blurred outdoor setting with wooden chairs and a table.

Halo One

Bluetooth Speaker

Halo One is an original, modern, and breathtaking designed Bluetooth speaker from us. The aesthetically and fashionably shaped sound box reveals elegant curves and wood texture and delivers smooth sense of touch and phenomenal audio quality.

Halo One meets people's desire for adding an unusual, inspiring, and aesthetic table art in their living or working space, as well as seriously improving your listening experience from the two 1" tweeters with amazing stereo sound for the large version and TWS technology from the mini version. Plus, the touch sensitive control panel built underneath the smooth surface of the sound box and powered by built-in rechargeable lithium-polymer battery make your operating experience more enjoyable.

Design Led Clock Collection

Flip Click Clock
Cube Click Clock
Brick Click Clock

We're all guilty of being slaves to time. But with our design-led clock collection, at least you can be a slave to time with style!

Combining functionality with aesthetics, our clock collection will excite and impress. From our Gift of the Year Winner, the Flip Click Clock, to our best selling original Cube Click Clock, they're all enough to inspire you to take the time to browse.

Flip Click Clock

The UK Gift of the Year Award-winning Flip Click Clock changes your normal way of using an alarm clock. When nicely engraved alarm icon shows on top, it means your alarm is turned on, otherwise, it's turned off.

Made of natural wood material, the Flip Click Clock is super-easy to use. To set the time and alarm, simply touch the fine laser engraved buttons. When the alarm goes off, gently touch any of these engraved buttons on the top to snooze and to turn off the alarm, you can easily flip it over and the numbers will magically correct themselves to a normal display as well, keeping the same time and moving as accurate as before.

Touch any of these engraved buttons on the top to snooze and to turn off the alarm, you can easily flip it over and the numbers will magically correct themselves.

Simple, Smart, Stylish...

Timekeeping can be smart, clever, ultra-stylish, functional and simple with our cube click alarm clock. The original Gingko Cube Click Clock can tell you the time, date and temperature alternately in LED numbers on a wood grained or other finished cube block at the click of your fingers and automatically switches off when the room is quiet, lighting up again when the alarms goes off or as a response to clicked fingers or clapped hands.

The numbers seem to float on the lovely wooden block, but that's just half the magic of the cuboid with a conscience.

Small, but smart; simple, but clever.

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display like the cube. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.

Tech and Gadgets Collection

Here you will find our gadgets and smaller technology led products. We'll be adding more of our fun, functional and stylish gadgets to this section soon.

Now, we're very pleased to introduce our Flameless Element Lighter, a cool and luxuriously made lighter without a flame.

Not only smart in looks but smart in technology, the Flameless Element Lighter from Gingko Design is not your average lighter.

Disguised in a cigar-shaped tube with a real copper top, a quick blow gently reveals a completely flameless heated metal ring that burns to a high temperature. After a few seconds it automatically turns itself off and you can simply screw the lid back on and enjoy its exceptionable quality and compactness.

Encased in a real natural walnut or white ash wood exterior and complemented by its gold metal top, this is a lighter with a smooth and luxurious feel. In a class of its own, it certainly gives you a whole new lighter experience and makes a perfect, stylish gift.
