

memobottle™

The flat water bottle designed to fit

MEET THE MEMOBOTTLE

Flat. Space-saving. Convenient.

The memobottle's unique and innovative design makes it easy to stay hydrated on the move.

The paper-inspired design allows it to sit flat against laptops, books and anything else you might carry.

OUR MISSION

A mission in a bottle

The memobottle was designed to have a positive impact on the world. As a business, we aim to do our part as well.

Since 2014, the use of memobottle products have diverted 200+ million single-use bottles from landfill.

We're also a certified B Corporation, and a proud partner of Water.org - our donations providing over 33.8 million days of safe water access for communities around the world.

A photograph of a woman wearing a white headscarf and a striped shirt, standing in a shallow body of water. She is using a green container to collect water, with a splash visible. The background is a soft-focus rural landscape with trees and foliage.

Every memobottle™ provides
5 months of safe water access

Jonathan Byrt & Jesse Leeworthy
Co-Founders of memobottle™

WHO ARE WE?

Creating a Reusable Lifestyle

Growing up in a small coastal town near Melbourne, Australia, we saw firsthand the devastating effect that single-use plastic water bottles are having on our oceans and environment.

We realised that to lead a social movement, and break society's reliance on single-use bottles, a truly convenient and beautiful alternative needed to be created.

We're working passionately to create the Reusable Lifestyle - an ecosystem of reusable products designed to reduce the world's reliance on single-use consumption, and offer improved life convenience.

“Memobottle reimagines the
water bottle”

“Memobottle: the answer to
on-the-go water needs”

Stainless Steel memobottle

Flat like paper. Strong as steel.

Stainless Steel memobottle™

DURABLE AND ELEGANT

Crafted from Stainless Steel and featuring a scratch resistant satin-textured powdercoat - this daily companion is built to withstand whatever life throws at you for years to come.

FAST-FLOW DESIGN

The best-in-class mouthpiece is designed for easy filling, and fast hydration. With a generous inch-wide opening, this unique design offers a big step-up on conventional flask openings.

INTERNAL THREAD

The mouthpiece features an innovative internal screw thread, offering a luxuriously smooth drinking experience, and ultra-minimal appearance. It also keeps the drinking surface covered when not in use, ensuring it stays clean at all times.

SPECIFICATIONS

- 304 Stainless Steel (body, lid outer)
- BPA and BPS free plastic (lid inner)
- Food-grade silicone (seal)
- Boiling water and freezer safe
- Clean with hot water and either vinegar or detergent

Original memobottle

The flat water bottle that started it all

Original memobottle™

SLIM AND LIGHTWEIGHT

The Original memobottle is designed to go where other bottles can't. With a slim profile of just one inch, it effortlessly fits flat in your bag, backpack, or laptop case, ensuring easy hydration on the go.

HEAD-TURNING HYDRATION

With its stunning transparency and unique design, the memobottle makes it exciting to carry water on the go. It's an everyday conversation starter that turns heads with every sip.

TRITAN PLASTIC

Glass-like clarity in a lightweight and shatter-resistant material. Crafted from Tritan Plastic, the Original memobottle offers exceptional durability and safety. Made to last, this BPA and BPS-free plastic bottle will be by your side for years to come.

SPECIFICATIONS

- Tritan™ Plastic (body)
- Stainless Steel (lid outer)
- BPA and BPS free plastic (lid inner)
- Food-grade silicone (seal)
- Boiling water and freezer safe
- Clean with hot water and either vinegar or detergent

Silicone Sleeves

Add a splash of personality and protection

Silicone Sleeves

Add a splash of personality to your memobottle while protecting it from life's little bumps and bruises.

With a smooth matte finish and added thermal insulation, they are the perfect example of form meets function.
