

WELLmark

Luxury home and body products

Ready to enrich your world? Our products are **vegan** and packaged in **glass**.

The products are made in **social workshops**. Good for you and **society**.

No plastic and **refills** for all our items.

Our assortment includes hand soaps, scented candles, hand lotion, bath salts, and many more luxury home and body products. The perfect gift for yourself or anyone you hold dear.

WELLmark

How we started

Wellmark was founded in 2017 with the vision of developing luxury body & home products that are junk-free and vegan as well as making a social contribution to society.

With this plan, owner Marleen began selling her first Wellmark product on the shelf of a concept store.

The range now includes hand soap, dishsoaps, bath salts and scented candles and the products are available in more than 500 sellingpoints across Europe.

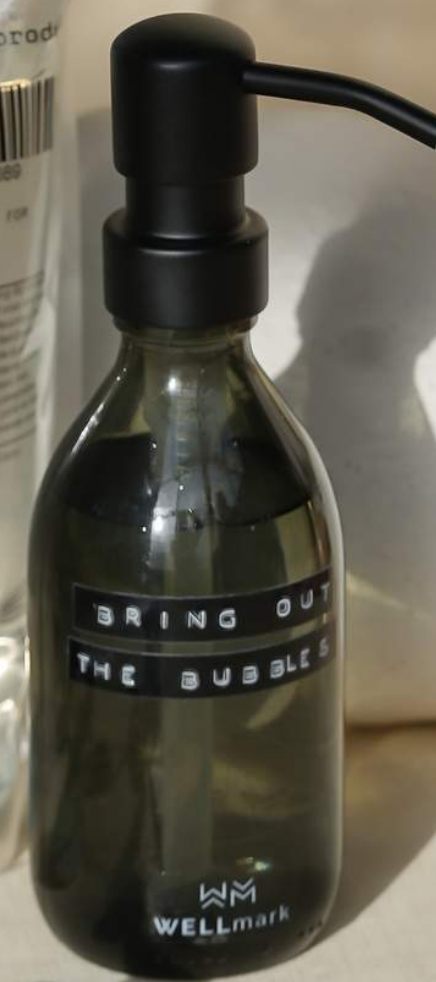

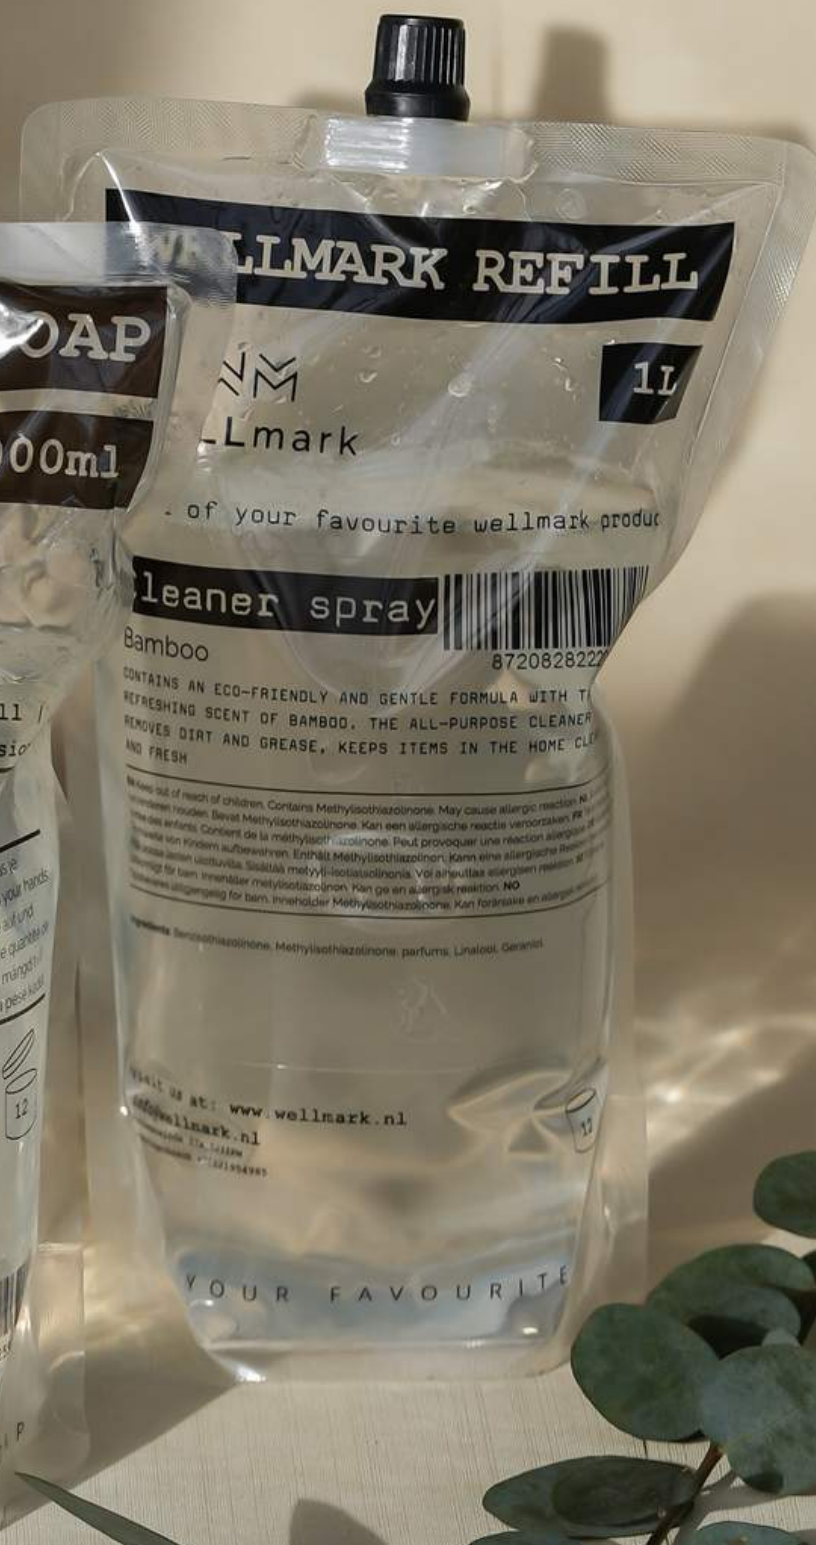

WELLmark

Handmade in The Netherlands, in a social work environment

WELLmark

Reusable Glass Bottles

Contributing to a better world is a lot easier with our reusable glass bottles and refills.

The glass bottles are made of recycled glass and contain different quotes that will always put a smile on your face. With the refill packs, you can reuse your glass bottle and reduce waste.
