

AYA&IDA  
**COLLECTION**

*Creating reusables to replace  
single-use products*

*AYA&IDA's vision is to offer products that can inspire people to live more healthily and avoid unnecessary use of disposable products.*

OUR WHY

## ABOUT US

AYA&IDA was created because we want to contribute to relieving the earth of the excessive amount of plastic waste and consumption that we have all become accustomed to. We believe that a responsible approach to life benefits us all and especially future generations. The earth and its resources require that we all assess our consumption. That we all choose fewer, good products.

Our products combine design, aesthetics and functionality in particular - all of factors that contribute to making it easy for our customers to use them in everyday life. Every day.

We believe that a responsible approach to business benefits us all and especially future generations. 1 in 10 people in the world lack access to clean water, and therefore; for every product sold, AYA&IDA Foundation donates, via UNICEF, 100 litres of clean water to some of the world's most vulnerable children.

AYA&IDA FOUNDATION

## **1 IN 10 PEOPLE IN THE WORLD LACK ACCESS TO CLEAN WATER**

AYA&IDA Foundation donates 100 litres of clean water to children in need for every AYA&IDA product sold.

UNICEF estimates that 1000 children are dying every day due to lack of clean water. We believe that EVERY child has the right to be healthy and have a safe life, no matter where their home is. UNICEF's fight for the children has also become ours, and we are proud to call AYA&IDA an official UNICEF Partner. Through their organisation we donate 100 liters of clean water for each product sold.

The current global warming means higher temperatures, and as a result of that, smaller amounts of clean water. Providing clean drinking water is crucial and important, which makes us proud to be able to contribute in making a difference.

#foreverychild

AYA&IDA

## SUSTAINABLE DEVELOPMENT GOALS

As a company, we believe that it is important to support the initiatives that come from the world around us. The UN's Global Goals are no exception. We have carefully selected the World Goals where we believe we can integrate them into everyday life and thereby make our contribution. For more information go to [ayaandida.com](http://ayaandida.com)

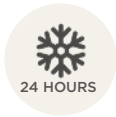

FOUR SIZES

## DRINKING BOTTLES

AYA&IDA drinking bottles keep your drinks perfectly cold for 24 hours and warm for 12. Made of 1st class food approved stainless steel 18/8. Perfect on the go whether you have tea, coffee, lemonade or ice cold water in your bottle as it does not give off flavor or interact with its content. AYA&IDA drinking bottles are laboratory certified to meet LFGB (food contact grade testing).

The drinking bottles are available in the following sizes: 350 ml, 500 ml, 750 ml and 1000 ml.

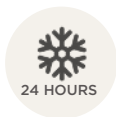

FOR THE LITTLE ONES

## KIDS STRAW BOTTLE 350 ML

A reusable drinking bottle - that keeps cold for 24 hours and warm for 12 - made especially for kids. The bottle has children-friendly features, making it easy for kids to manage their thirst on their own. Kids Straw Bottle has a unique lid, that opens with just a gentle press on the button. The bottle is made with a handle on the top for easy carrying and holds 350 ml - a perfect size for our children.

The AYA&IDA Kids Straw Bottle is made from 1st class food approved stainless steel 18/8 with lid and straw in polypropylene plastic and premium silicone. Kids Straw Bottle is laboratory certified to meet LFGB (food contact grade testing).

# SHAKER BOTTLE

Shaker Bottle is a sports drinking bottle made for your training, either as your drinking bottle or protein shaker - it works perfectly for both. Shaker Bottle contains 750 ml, and the small ball to mix the protein powder with is included. Shaker Bottle is made of 1-layer first-class stainless steel 18/8 with a polypropylene plastic lid. The bottle is designed for quick use, without the need for a thermo function, which makes it perfect for a quick shake before or after your workout. Shaker Bottle is laboratory certified to meet LFGB (food contact grade testing).

# THERMO CUP WITH STRAW

Thermo Cup with Straw is our spacious to-go cup, which holds 885 ml. The cup keeps drinks cold for 12 hours and iced for 36 hours. It is a spacious to-go cup with a straw and handle, ensuring your hydration needs are met while on the go. Drink water, juice, smoothies, and other cold beverages through the straw in the lid. If you want to use it for hot drinks, use the small opening in the lid. Thermo Cup with Straw is made from premium 18/8 stainless steel, while the lid is made from Tritan, and the straw from platinum silicone. Thermo Cup with Straw is laboratory certified to meet LFGB (food contact grade testing).

# CUP2GO

The AYA&IDA CUP2GO is a functional and reusable alternative to single-use cups with plastic lids. With its practical lid, CUP2GO easily opens and closes with one hand. The cup is 100% tight, so you can safely store it in your bag without it spilling. Ideal for bringing coffee from home, the local coffee shop, to school or for work. The CUP2GO is dishwasher safe and fits in most cup holders. AYA&IDA CUP2GO is laboratory certified to meet LFGB (food contact grade testing).

Available in various colours in 380 and 500 ml.

- Divider, strap and vault for Lunch Box
- Inner silicone rings for Drinking Bottle, CUP2GO and Food'ie

## COMPLIANCE

# QUALITY ASSURANCE

AYA&IDA is registered with the Danish Veterinary and Food Administration, and we are therefore regularly checked in accordance with the legislation for wholesale trade in food contact materials.

The AYA&IDA bottle is always assessed and documented in accordance with the following EU legislation for food contact materials:

- EU Directive 1907/2006 on REACH and Annex XVII.
- EU Directive 1935/2004 / EC on food contact materials.
- EU Directive 94/62 / EC and amendment 2004/12 / EC on the content of heavy metals in food contact materials.
- EU Directive 2023/2006 / EC - "good manufacturing practice" (GMP) for the production of food contact materials.
- Executive Order no. 822 of 26 June 2013 on food contact materials.

Bottles incl. coating are tested according to the following standards:

- LFGB (German standard, which is stricter than the Danish)
- SVHC-REACH
- EN1186 Migration test

RESPONSIBILITY

## PRODUCTION

AYA&IDA's products are manufactured in Zhejiang Province, China, by certified partners. They have implemented and maintain certifications for quality, just as they are a member of BSCI in relation to working environment, environment and safety.

We have chosen our partners very carefully and often visit the facilities ourselves. We have an ongoing dialogue and compliance with the industry's high standards of quality, safety, fair labor, ethical business practices and environmental responsibility.

We have entered into agreements that ensure healthy, safe, fair and responsible conditions, just as social and environmental assessments are carried out on an ongoing basis - as well as material and product safety testing.

We want to dispel the myth that responsibility and "made in China" are mutually exclusive and we work hard to ensure that we are accountable at every step.
